

MAXHUB UC P30

The MAXHUB UC P30 is a 4K dual-eye tracking camera designed for medium and large rooms. It features a built-in dual 4K camera and a range of AI-driven features, including Auto Framing, Speaker Tracking, and Presenter Tracking, which allow it to reproduce every moment and detail precisely. The camera supports a 4K video stream, captures every detail of the meeting, and offers multiple installation options for flexibility.

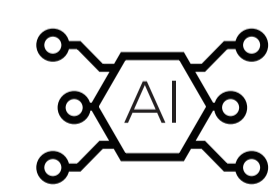

Dual Lens 4K Camera

120° FOV wide angle lens detects participants in real-time while directing the PTZ Camera with best view.

12x Optical Zoom

The 12X optical zoom, powerful 8MP camera and 4K resolution offer the range and picture quality to produce the highest quality output.

AI Powered

Auto Framing
Speaker Tracking
Presenter Tracking

Manage And Control

Remotely manage and control via MAXHUB Pivot or room control on MAXHUB Microsoft Teams Rooms products.

Privacy Guarantee

When not in use, PTZ camera tilts downward and electric privacy cover would remain closed.

Flexible Installation

With PoE+, a single Cat5e/Cat6e cable supports IP Streaming and power.

UC P30

Dual Camera		
PTZ Camera		
Image sensor	Sony 4K, 1/1.8, 8.42M pixel
