

LDI Connect | SHURE Featured Products

OVERVIEW – SHURE 100 YEARS

Shure's history is the history of audio. As a company of engineers, concert goers, performers and presenters – Shure makes products with a passion fueled by a deep understanding and respect for the needs of the people they make them for.

Since 1925, Shure has been a technology leader whose products have set the industry standard and become synonymous with superior quality and reliability for generations of people.

MXA902

MXA920

IntelliMix™ Foundation System

SHURE MXA902 CEILING + LOUDSPEAKER

The first combination ceiling array microphone and loudspeaker for AV conferencing in small & medium spaces. With only one device to mount and one cable to connect, you'll have cleaner, clearer sound faster than ever. Single Zone Automatic Coverage™ technology covers a 20 by 20 foot (6 by 6 meter) area while onboard IntelliMix® DSP delivers echo- and noise-free audio.

SHURE MXA920 MICROPHONE CEILING ARRAY

Automatic Coverage™ technology requires no setup yet gives you precise control of audio capture if desired. With next-generation array architecture for enhanced directional pickup and more natural speech, the MXA920 ceiling array microphone is easy to use and quick to deploy for AV conferencing, camera tracking, voice lift, or sound reinforcement.

SHURE IMX5 INTELLIMIX FOUNDATION SYSTEM

Create, deploy and manage sophisticated AV solutions for demanding collaboration spaces with this powerful Compute + Touch Panel Kit for Microsoft Teams Rooms. Ideal for custom AV system integration, the Windows-based Teams Rooms Compute with built-in IntelliMix Room® DSP is optimized for use with Shure's extensive portfolio of certified audio products.

It provides unparalleled flexibility to deliver pristine audio quality in spaces that require tailored solutions. The high-resolution Touch Panel provides intuitive controls and a convenient content ingest port for effective, people-centric meeting experiences.

Microflex Wireless neXt 2

SHURE MXWAPXD2 MICROFLEX® WIRELESS neXt 2

The Microflex® Wireless neXt system is more than a wireless microphone. It's an all-in-one audio solution for hybrid classrooms, training rooms, and lecture halls that provides superior audio for conferencing and presentations at the same time. Despite its comprehensive feature set, the MXW neXt system is easy to set up in minutes.

Current Microsoft Teams and Zoom Rooms certification solutions include MXWAPXD2, MXW6X, and MXN5W-C.

MXN-AMP

SHURE MXN-AMP MULTICHANNEL POE+ POWERED AMPLIFIER

Multichannel PoE+ powered amplifier designed for speech and program audio reproduction in meeting rooms. The Microflex® Conferencing amplifier is designed for conferencing with clear, intelligible audio. When used with Microflex Ecosystem microphones, DSP, and loudspeakers, they deliver room-filling sound, quick installation in a variety of room types, and the efficiency of a single-source solution.
